Junior Full Stack Developer

SUMMARY

Motivated and skilled junior full stack developer with practical experience in full-stack website development. Strong foundation in JavaScript and modern web technologies, backed by leadership and customer service experience. Proven skills in communication, problem-solving, and team collaboration. Passionate about building dynamic applications and contributing to agile development teams.

TECHNICAL SKILLS

Languages: JavaScript, HTML, SQL, CSS, SCSS, TypeScript, Haskell

Frameworks/Libraries: React, Node.js, Express.js, Angular

Databases: PostgreSQL

Tools: Git, GitHub, VS Code

Methodologies: Agile, Scrum

Other: Cloud-based Application Development, REST APIs

PROJECTS

DevNest – Full Stack Developer

A social platform for developers to connect, share projects, and engage in real-time discussions.

- Built using React, Node.js, Express, and PostgreSQL
- Implemented user authentication, friend requests, notifications, and post interactions (likes/comments)
- GitHub: github.com/harrywilliams/devnest
- Live: <https://devnest-frontend.onrender.com/>

Portfolio Website – Frontend Developer

A personal portfolio site showcasing full-stack projects and developer profile.

- Built using Angular, HTML, SCSS, and TypeScript
 - Responsive design with smooth scrolling and section navigation
 - Link: <https://harry-williams-dev.netlify.app/>
-

PROFESSIONAL EXPERIENCE

Bar Supervisor

The Waterfront Restaurant, Hythe | 08/2020 – Present

- Supervised and scheduled teams of 10+ in a high-pressure, customer-facing environment
- Enhanced leadership, time management, and communication skills
- Coordinated daily operations and implemented process improvements

Head Bartender

The Royal Oak, Twickenham | 08/2018 – 07/2020

- Progressed from team member to leadership role
- Oversaw daily operations, cash handling, and inventory management
- Strengthened teamwork and critical thinking in a fast-paced setting

Junior Developer (Part-time Internship)

Arkasoft, California | 05/2020 – 08/2020

- Contributed to cloud-based application projects using JavaScript
- Gained exposure to Python during development cycles
- Assisted with debugging, code reviews, and iterative updates

EDUCATION
